

PERMACOLOUR

PTY.
LTD.

Permacolour Pty. Ltd. are one of Australia's leading manufacturers and distributors/exporters of all products and accessories relating to the decorative concrete industry; having established this position over a 12 year period through contracting, manufacturing, sales and extensive ongoing research and development, with a commitment to customer service and technical support for all our products.

The features and benefits of Permacolour products are wide ranging and varied, keeping abreast with the decorative concrete industry – one of the most rapidly developing areas of building technology.

Whether it be a home owner or concreter wanting to use Permacolour products, through to servicing architects, engineers, construction companies or future distributors with data and information, Permacolour will more than meet your expectations.

The processes involved using the decorative concrete materials that Permacolour manufacture include pattern stamped concrete and stencilled concrete for new or 'wet' concrete works; and Flocrete decorative spray on topping and Patina Stain for enhancing or renovating existing concrete structures and surfaces.

All processes are suitable for interior/exterior, residential/commercial, patios, driveways, roadways, pool surrounds, pathways – actually anywhere there is a need for decorative concrete with a more durable and low maintenance surface.

Permacolour's dedication to this ever expanding industry will ensure our existing and future distributors/users will receive the support and exposure in the marketplace they require.

All Permacolour products and processes are easily applied by existing tradespeople, but Permacolour also offer a training and consultancy program for those embarking on a new road into decorative concrete; as we wish to see our products used correctly, our clients happy with the results and our name continually held in high regard.

Permacolour manufacture (approximately 3,500 tonne/annum), promote, train & consult and distribute the full range of decorative concrete products to markets all round the world which include: NEW ZEALAND, NEW CALEDONIA, PAPUA NEW GUINEA, MALAYSIA, SINGAPORE, THE PHILIPPINES, KOREA, CHINA, JAPAN, BRUNEI, SAUDI ARABIA, KUWAIT, SOUTH AFRICA, AND CANADA.

So contact us, experience the high standard and respect Permacolour products command in today's international marketplace and receive the added exposure due to ongoing communication of new and emerging products and processes in the exciting and ever expanding world of decorative concrete.
